Another Session of Moonlight Schools

Moonlight schools will open in many countries next Monday evening, October 9th, for a six weeks term. Those countries that could not begin with the September session will start with this session, and some of those that began in August will have a second term beginning with October 9th. The Kentucky Illiteracy Commission, Frankfort, Mrs. Cora Wilson Stewart, President, furnishes books, tablets, &c., and all information.

A prize trip to Washington is to be given by Kentucky's Senators and Congressmen to the moonlight school teacher who teaches the largest number to read and write in his school, including also, the largest enrollment and best attendance. Credits are given by the two state Normals on all of their course to those teachers who teach a full six weeks' term of moonlight schools. Twenty five thousand emancipated from illiteracy this year is the slogan for the State.

Flag Day.
Flag day was first officially recognized by the governor of New York when he ordered flags flown on all public buildings on June 14, 1897. Philadelphia celebrated the same day. Since then the custom has spread over the whole country. The day is the anniversary of the adoption of the American flag, June 14, 1790.

BOND ISSUE ELECTION NOV. 7

Election of Commissioners at
Mass Meeting Ratified by
City Council

At the regular monthly meeting of the city council Monday night an ordinance was passed providing for the submission of the \$15,000 bond issue to the voters of Earlington for ratification at the general election on November 7. The bonds are for the purpose of building the Dixie Bee Line through Earlington and for the permanent improvement of the streets of the city.

The election of Dr. C. B. Johnson, F. B. Arnold and Jas. R. Rash, as commissioners to disburse the funds of the \$15,000 bond issue, was approved unanimously. They were elected at a mass meeting of citizens and property owners last week.

The city council laid over until Monday night an ordinance which prohibits vendors of dry goods, groceries, soaps, perfumes, spectacles and feedstuffs from selling such articles unless they have license under penalty of a fine.

A petition for an electric light in Logtown was read and laid over.

The city council also considered a petition from property owners in South Earlington for the diverting of a waterway. The city council is considering plans to alleviate the nuisance complained of.

Bills were allowed.

An adjourned meeting of the council will be held Monday night.

LINEN SHOWER FOR MRS. GRANT

The ladies of the Methodist Church, South, gave Mrs. W. A. Grant a linen shower last Wednesday night after prayer meeting. This shower came as a great surprise to Mrs. Grant. There were a large number of useful and valuable remembrances that were appreciated as much for the spirit in which they were given as for their intrinsic value. During her four years' association with Earlington people she has made many warm friends here who regret exceedingly to see her leave the church and the city.

Two Wrecks on Henderson Division

A broken brake beam, midway the train, caused thirteen cars to be derailed at West Fork, between Springfield and Guthrie, Monday. The cars plunged down an embankment. The train crew escaped injury. Conductor W. A. Boyd and Engineer, Will Luton, were in charge of the train.

No. 95 struck the switch engine, which had a carload of flour, at Hopkinsville on the same day. The engine was badly damaged while the car of flour was demolished.

Improved Star-Finder.
The novel star-finder of a Shanghai inventor has the form of a parasol. When the parasol is opened and its stick is pointed toward Polaris the stars and constellations charted upon its covering are found to have the same relative positions as in the sky overhead, so that finding the celestial objects is easy.

Deputy Sheriff.
No special qualification, or examination, is required for one who would become a deputy sheriff, beyond courage, intelligence and the willingness to serve the public interests.

Sound Advice.
If you are in the habit of being an innocent bystander take treatment for your innocence or cease bystand-ing.—Judge.

Daily Thought.
The art of living is like every other art; only the capacity is born with us; it must be learned and practiced with incessant care.—Goethe.

The manager of the store will be Mr. Cowand who is well known as a splendid gentleman and a fine business man. The people of Earlington regret to lose this excellent family.

MOTHER! YOUR CHILD IS CROSS, FEVERISH, FROM CONSTIPATION

If Tongue is Coated, Breath
Bad, Stomach Sour,
Clean Liver and Bowels

Give "California Syrup of Figs" at once—a teaspoonful today often saves a sick child tomorrow.

If your little one is out-of-sorts, half-sick, isn't resting, eating and acting naturally—look, Mother! see if tongue is coated. This is a sure sign that its little stomach, liver and bowels are clogged with waste. When cross, irritable, feverish, stomach sour, breath bad or has stomach-ache, diarrhoea, sore throat, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the constipated poison, undigested food and sour bile gently moves out of its little bowels without griping, and you have a well, playful child again.

Mothers can rest easy after giving this harmless "fruit laxative," because it never fails to cleanse the little one's liver and bowels and sweeten the stomach and they really love its pleasant taste. Full directions for babies, children of all ages and for grown-ups printed on each bottle.

Beware of counterfeit fig syrups. Ask your druggist for a 50 cent bottle of "California Syrup of Figs;" then see that it is made by the "California Fig Syrup Company."

THREE INDICTED ON MURDER CHARGE

Dawson Springs Men Ac-
cused of Slaying Chief of
Police K. H. Keach

Mack Logan, Frank Tribble and Buck Ferguson, all of Dawson Springs, were indicted by the grand jury at Madisonville today, charged with wilful murder as a result of the killing of Chief of Police K. H. Keach, at Dawson Springs on July 19, last. The chief killed Dick Rodgers before he was shot down by Mack Logan. Rodgers had sworn out a warrant against Keach and placed it in the hands of Constable Ferguson to make the arrest. Ferguson deputized Logan, Tribble and Rodgers to assist him. It was claimed in the testimony at the examining trial that Rodgers fired on the marshal and that Keach then shot and killed him.

While Tribble and Ferguson were holding Keach and endeavoring to take his revolver from him, Mack Logan is said to have walked up from the rear and fired the shot, killing the officer, the ball penetrating the back of the head.

Tribble and Ferguson were arrested today and placed in jail. Logan has been in jail since his examining trial. Thirty-three indictments were returned by the grand jury.

The trial of Hubert Davis, alleged "night rider" in the Circumlocutionary raid in 1914, is still in progress. Practically the same evidence that convicted several men at the February term is being introduced.

October Bargain Club

An opportunity is presented our readers this month to secure The Evansville Courier daily for one year and The Bee sent semi weekly one year at the bargain rate of \$3.50. The regular price for both papers is \$5.00.

It is expected that hundreds of people will take advantage of this chance to get their favorite city daily and home semi-weekly at a moderate price. If your subscription does not expire until later, your time will be extended one year. This low rate is made however only in the month of October.

DIRECTORS MEETING

The regular October meeting of the Directors of St. Bernard Mining Co. will be held in the offices of the Company at Earlington, Ky., on Wednesday, Oct. 11, 1916.

Dan M. Evans, Sec'y.

New Danger.
Once we have this wireless phone in common use it ought to be easy for suspicious wives to locate errant husbands compelled to stay late at the office.

Trifles That Annoy.
How true it is that it's the little things that make or mar one's happiness! We know one noble and high-minded woman, for instance, whose whole life seemed blighted during a recent 24-hour period because she got a little too much bluing in the water she washed the curtains in.—Ohio State Journal.

To Have Bright, Clear Light.
A smoking lamp or one with an unpleasant odor is usually caused by dirt. Soaking the wick and occasionally the burner in strong vinegar for an hour and then rinsing it in fresh vinegar and drying thoroughly will keep these parts clean.

SPEAKING AT OPERA HOUSE

Thursday Night by Hon. D.
H. Kincheloe and Con-
gressman Garrett

EVERY ONE INVITED TO ATTEND

Arrangements have been made by the Earlington Democratic Club to have Congressman J. Finis Garrett, of Tennessee, and Hon. D. H. Kincheloe, of Kentucky, address the voters of Earlington and vicinity on the political issues of the day at the opera house next Thursday night. Congressman Garrett is said to be an eloquent and fluent speaker whom it will be a treat to hear and our "Dave" needs no introduction to the people of Earlington.

Quite a number from Madisonville and other outlying towns will be present. A cordial invitation is extended to all to come out and hear these silver-tongued spellbinders. The ladies are especially invited.

MOTHER'S LOVE AIDS SON IN TRENCHES

It Brings Relief to Boy Stand-
ing His Watch Deep in
Mud!

Once upon a time, only a few months after this terrible war had begun Private Bailey, a soldier in the ranks had stood for days in the trenches "somewhere in France." The cold rains soaked him to the skin; the mud was deep. He had had no rest. Weary and aching with rheumatic pains, he recalled the faith his mother had in Sloan's Liniment. He asked for it in his next letter home. A large bottle was immediately sent him and a few applications killed the pain, once more he was able to stand the severe exposure. He shared his wonderful muscle-soother with his comrades, and they agreed it was the greatest "reinforcement" that had ever come to their rescue. At your druggist, 25c, 50c, and \$1.00 a bottle.

Sloan's Liniment KILLS PAIN

Guided by Magnetic Currents.
Recent experience has tended to show that carrier pigeons and other birds of passage are guided by magnetic currents. M. A. Thauzies, a French student of pigeons, has noted that on two occasions when pigeon flights were unsatisfactory magnetic storms were occurring, and the flights of these birds have been becoming often uncertain and erratic since wireless telegraphy came into extensive use.

Origin of the Hurdy-Gurdy.
The early type of hurdy-gurdy originated in Germany during the ninth century, and under the name of bauren-leier (peasant's lyre?) attained great popularity throughout Europe, falling into a decline only at the beginning of the last century. Even today a slightly modernized type of this instrument may be seen upon the streets of the smaller towns of Savoy.

Treating Insomnia.
The latest cure for insomnia, notes the Toledo Bee, is counting your inhalations and exhalations, but the Blade is skeptical, and comments: "We do not like mutton, but expect to continue counting sheep." In case of insomnia "first aid" should be to turn on the light, take up a book and read. While this may not cure insomnia, it does it and is gratifying to a belligerent mind.

Origin of "Furlong."
Furlong was at first a furrew long, or the distance that a pair of oxen would plow in half an hour.
